

MUHAMMAD SUHAIMI BIN MOHD SHAM

@S U H A I M I

PROFILE

Gender : Male
Birthday : 18 July 2005
Birth Place : Kuala Lumpur
Religion : Islam
Race : Malay
Nationality : Malaysian

CONTACT

Phone : +6011-13277665
Email : m.suhaimipro@gmail.com
LinkedIn : [linkedin.com/in/suhaimi-sham](https://www.linkedin.com/in/suhaimi-sham)

ADDRESS

No. 7, Jalan Saujana 3,
Desa Saujana Langat,
43100 Hulu Langat, Selangor

COMPUTING SKILLS

Microsoft Office

Word, Excel, Power Point, Access

Google Workspace

Docs, Sheet, Slides, Forms, Drive

Adobe

Lightroom

Video & Audio Editing

Davinci resolve, Audacity

Programming Editor

Notepad++, Dev-C++, java, NetBeans IDE,
Microsoft Visual Studio, Microsoft Studio
Code, Jupyter Notebook, Android Studio

Video Conferencing

Google Meet, Microsoft Teams, WebEx,
Zoom

Virtualization & OS Platforms

Windows, Linux, Virtual Box

Modelling & Diagramming Tools

StarUML

Database Tools

MySQL/phpMyAdmin)

Project Management System

Trello, GitHub, GitHub Desktop

EDUCATION

UNIVERSITI TEKNOLOGI MALAYSIA, KUALA LUMPUR

July 2023 – July 2026
Diploma in Computer Science
CGPA - 3.66

SEK. MEN. AGAMA (A) ILMI, AMPANG

January 2018 – March 2023
Sijil Pendidikan Malaysia (SPM) – Economics & Business
1A-, 2B+, 1B, 5C+, 1E

WORK EXPERIENCE

CATERING MAK JAH - WAITER

Jun 2025 – July 2025

Provides courteous and efficient table service by delivering food and beverages to customers. Ensures orders are accurate, timely, and meet established quality standards. Maintains a clean and organized service area while supporting overall guest satisfaction

TCK e-Solutions Sdn. Bhd. – Internship (Software Developer)

Dec 2025 – Mac 2026

Detail oriented Full Stack Developer and Data Analyst intern with experience in developing automated monitoring systems and real time data dashboards. Proven ability to bridge the gap between backend logic and frontend visualization while maintaining rigorous technical documentation standards in an industrial engineering environment.

TCK e-Solutions Sdn. Bhd. – Contract (Software Developer)

May 2025 – September 2026

Results driven specializing in AI assisted development workflows to build advanced data decoding pipelines that transform raw telemetry into clean, usable data. Demonstrated technical expertise in designing comprehensive hydrology map monitoring systems for client operations, successfully bridging geospatial analysis, automated dashboard visualization, and robust data processing standards.

PROJECTS

Secondary School Attendance Management System – Window Application (VB.Net Programming)

July 2025 – November 2025

that streamlined the process of tracking, recording, and managing student attendance. The application was designed with a user friendly interface to simplify daily operations for teachers and administrators. Integrated a secure database system to store and retrieve attendance records accurately and

Local Server Tools

Xampp, Uniserverz,

TECHNICAL KNOWLEDGE

Network Fundamentals
Security Fundamentals
Computer Hardware
Basic Video & Audio Editing
Mobile Application
Web Application

Programming Language

HTML, C, C++, C#, Java, Java Script, PHP, CSS, VB. Net, Python

LANGUAGE

Malaysian University English Test (MUET)

Level : Band 4 of 6

Common European Framework of Reference for Languages (CEFR)

Level : Grade B1

Malay Language

Read : ●●●●●●●●●●
Spoken : ●●●●●●●●●●
Written : ●●●●●●●●●●

English Language

Read : ●●●●●●●●●○
Spoken : ●●●●●●●●○
Written : ●●●●●●●○○○

INTEREST AND HOBBY

Reading, cycling, listening to music and listen to podcast. Interest in computer hardware and anything about the latest technology. Love to learn a new things and exploring a new set of skill.

REFERENCE

MS NUR SUMAYYAH BINTI AHMAD

Lecturer / Academic Advisor
Dept. of Engineering,
Centre of Diploma Studies,
School of Professional & Continuing Studies
Universiti Teknologi Malaysia,
Jalan Sultan Yahya Petra,
54100 Kuala Lumpur.
Contact No : +60 19-924 0374
Email : sumayyah@utmSPACE.edu.my

MISS NUR SYAHIRA AMIRA MOHD AZHARI

Academic Executive,
Dept. of Computer Science and Services,
Centre of Diploma Studies,
School of Professional & Continuing Studies
Universiti Teknologi Malaysia,
Jalan Sultan Yahya Petra,
54100 Kuala Lumpur.
Contact No : +60 182038004
Email : nursyahira@utmSPACE.edu.my

efficiently. Applied strong skills in software development, database management, and problem solving to ensure the system reliability and performance. The project demonstrated the ability to deliver a complete solution that improved accuracy, reduced manual workload, and enhanced school record management.

Satay Kajang Uncle Ujang Ordering System – Website
(HTML, PHP, JavaScript, CSS)

July 2025 – November 2025

Developed an ordering system website with features such as menu display, ordering, admin management, staff management, and applied a user friendly interface that customer would understand and navigate the website. We also use workflow management tools such as using GitHub Desktop and Trello to manages a smooth flow and efficiency of the project. The final product demonstrated strong skills in web development, system design, and project coordination, tailored to real business needs.

File Detection System – Website
(HTML, JavaScript, CSS & Python)

Developed and optimized an automated File Detection System using Python and the Flask framework to streamline the monitoring of remote FTP servers. The system replaced manual verification processes with a real time dashboard that categorizes data transmission into "Data," "Empty," or "Missing" statuses, significantly improving technical response times to connectivity failures. By integrating interactive data visualization through Chart.js, the project provided stakeholders with high-level insights into server health and reporting integrity, ensuring the reliability of critical industrial monitoring infrastructure.

Telemetry Data Decryption & Database
(Python, Pandas & SQL)

Engineered a robust Python based data processing utility designed to decode hex encoded industrial telemetry feeds (including GPS coordinates and threshold parameters) into production ready datasets. Implemented adaptive file parsing and custom error handling mechanisms to resolve data corruption issues such as delimiter mismatches and odd length hex strings. Streamlined the data ingestion pipeline by generating sanitized CSV exports and optimized SQL schema scripts, significantly reducing manual database preparation overhead for critical monitoring operations.

AWARDS

November 2024	: Diploma Dean List - Semester 1 & 2 Universiti Teknologi Malaysia, Kuala Lumpur
November 2022	: MSSD Football Representative, Hulu Langat Sek. Men. Agama (A) Ilmi, Ampang
March 2024	: 3 rd Place - Sahur Frisbee League Competition Universiti Teknologi Malaysia, Kuala Lumpur
February 2024	: 1 st Place – Badminton Comsport Competition Universiti Teknologi Malaysia, Kuala Lumpur
September 2025	: 2 nd Place – Badminton Comsport Competition Universiti Teknologi Malaysia, Kuala Lumpur

LEADERSHIP ACTIVITIES

Oct 2024	: Exco Economy - Persatuan Mahasiswa Islam, Universiti Teknologi Malaysia, Kuala Lumpur

EXTRACURRICULAR ACTIVITIES

- 20 Feb 2024** : **Participant - eUsahawan & Gig Fest (MDEC)**
Kuala Lumpur Convention Center (KLCC), Kuala Lumpur
- 19 Apr 2025** : **Participant - From Diploma to Land Down Under**
Kolej Kediaman Siswa Jaya, UTMKL
- 20 Oct 2024** : **Presenter - Technology Drone Program,**
MJIT, UTMKL
- 24 Feb 2024** : **Participant – USR Zoo Negara (Sime Darby)**
Zoo Negara Malaysia, Kuala Lumpur
- 17 June 2022** : **Participant – Communic Asia**
Singapore Expo, Singapore
